

**raspberry pi with java programming the internet of things** - use raspberry pi with java to create innovative devices that power the internet of things raspberry pi with java programming the internet of things iot fills an important gap in knowledge between seasoned java developers and embedded hardware gurus taking a project based approach to skills development from which both hobbyists and professionals can learn, **raspberry pi electronics projects for the evil genius** - donald norris is an experienced engineer and adjunct professor at southern new hampshire university he is the author of programming the intel edison getting started with processing and python raspberry pi projects for the evil genius build your own quadcopter power up your designs with the parallax elev 8 and the internet of things do it yourself at home projects for arduino raspberry, **introduction to single board computing maxembedded** - introduction to single board computing this is an introductory post which deals with single board computers their need and examples two popular boards raspberry pi and beaglebone black are also discussed in detail, **exploring beaglebone chapter 5 practical beaglebone** - this is the chapter web page to support the content in chapter 5 of the book exploring beaglebone tools and techniques for building with embedded linux, **raspberry pi wiring examples gordons projects** - if you ve done the make install in the wiringpi directoyr check by `ls /usr/local/include` and `ls /usr/local/lib` see if the wiringpi files are there then the `l` lower case specifies the library name and the `L` upper case specifies the location, **arduino raspberry pi switching light with nrf24l01** - hardware to test the wiring we suggest you to use the ping pong test you can find in the rf24 libraries both of the raspberry and the arduino raspberry pi the connection between the raspberry pi and the nrf24l01 module was a little bit tricky so you have to double or triple check the wiring before giving up here is the wiring scheme the raspberry pi is a revision 2 and the module, **arduino adafruit industries unique fun diy** - arduino is the popular open source electronics prototyping platform based on easy to use hardware and software it s intended for artists designers hobbyists and anyone interested in creating interactive objects or environments and is designed to be as flexible as possible to fit your project s needs, **development boards adafruit industries unique fun diy** - adafruit industries unique fun diy electronics and kits development boards tools gift certificates arduino cables sensors leds books breakout boards power el wire tape panel components parts lcds displays wearables prototyping raspberry pi wireless young engineers 3d printing neopixels kits projects robotics cnc accessories cosplay costuming halloween reseller and school packs, **pay what you want 2018 arduino enthusiast e book bundle** - pay what you want with each pay what you want bundle you get something incredible for the price of your choosing if you beat the average price you ll unlock additional products and take home the entire bundle, **read raspberry pi measure record explore leanpub** - sd card the raspberry pi needs to store the operating system and working files on a micro sd card actually a micro sd card for the b model but a full size sd card if you re using a b model, **raspberry pi driving a relay using gpio susanet** - thanks mike yes it s worth pointing out that if you just need relay control and aren t interested in learning how to do the electronics stuff yourself then there are numerous cheap options available in fact any board that accepts 3.3v as a high signal will work directly with the raspberry pi s gpio outputs, **pc based heart rate monitor using arduino and easy pulse** - brief introduction of easy pulse v1.1 the easy pulse sensor is designed for hobby and educational applications to illustrate the principle of photoplethysmography ppg as a non invasive optical technique for detecting cardio vascular pulse wave from a fingertip, **raspberry pi reading wh1081 weather sensors using an rfm01** - this article describes using an rfm01 or rfm12b fsk rf transceiver with a raspberry pi to receive sensor data from a fine offset wh1080 or wh1081 specifically a maplin n96gy weather station s rf transmitter, **direct cnc control with the raspberry pi hackaday** - does the pi support a real time thread or is it limited by random latency issues causing the code to mis time some steps and jam stall the stepper
